Platform: WhatsApp Voice Call

Attendees:

- Mashudu Lishivha
- Boitumelo Nkosi
- Daniel Mosoatsi
- Fhatuwani Musekwa
- Emmanuel Mwandla

Agenda:

- Going through the sprint2 document/rubric.
- Coming up with 6 new user stories for sprint 2.
- Assigning tasks for each user story.
- Deciding the dates for all meetings before sprint 2 marking.
- Discussing complaints and lack of commission on the project, asked everyone to be more committed so we can improve.
- Creating UML diagrams to describe the architecture of the system.

Decisions made:

- Daniel will work on the UML diagrams.
- Having a discussion about making sure we have at least 50% code coverage.
- We came up with user stories that we will be able to complete for sprint2 and the UATs.

User stories:

1. As a user, I want to view the current SA prime lending rate so that I can understand how it affects my projected saving growth.
2. As a user, I want to view my current SA repo rate so that I can track central bank rate changes that influence my stokvel's potential returns.
3. As an admin, I want to assign roles to new users so that they automatically get the correct permissions when they join.
4. As a member invited to the platform, I want to accept an invite so that I can access the stokvel group.
5. As a treasurer invited to the platform, I want to accept an invite so that I can access the stokvel group.
6. As a treasurer, I want to view my dashboard so that I can track my financial records for the stokvel group.
7. As a user, I want to log out of the platform so that I can securely end my session.
