

Test Plan and Results

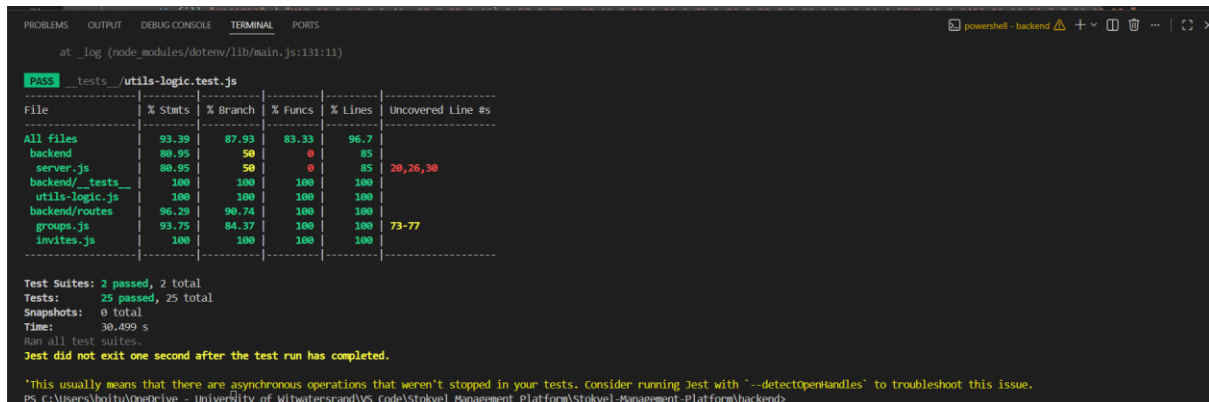

Backend tests

We ran backend test by running the following commands on the terminal:

```
cd backend
```

```
npm test
```

which led to this output:

```

Test Suites: 2 passed, 2 total
Tests:       25 passed, 25 total
Snapshots:   0 total
Time:        30.499 s
Ran all test suites.
Jest did not exit one second after the test run has completed.

This usually means that there are asynchronous operations that weren't stopped in your tests. Consider running Jest with '--detectOpenHandles' to troubleshoot this issue.
PS C:\Users\boitu\OneDrive - University of Witwatersrand\VS code\Stokvel Management Platform\Stokvel-Management-Platform\backend>
```

Runs 20+ UATs covering group management and invite endpoints using Jest. Coverage report is generated in backend/coverage/.

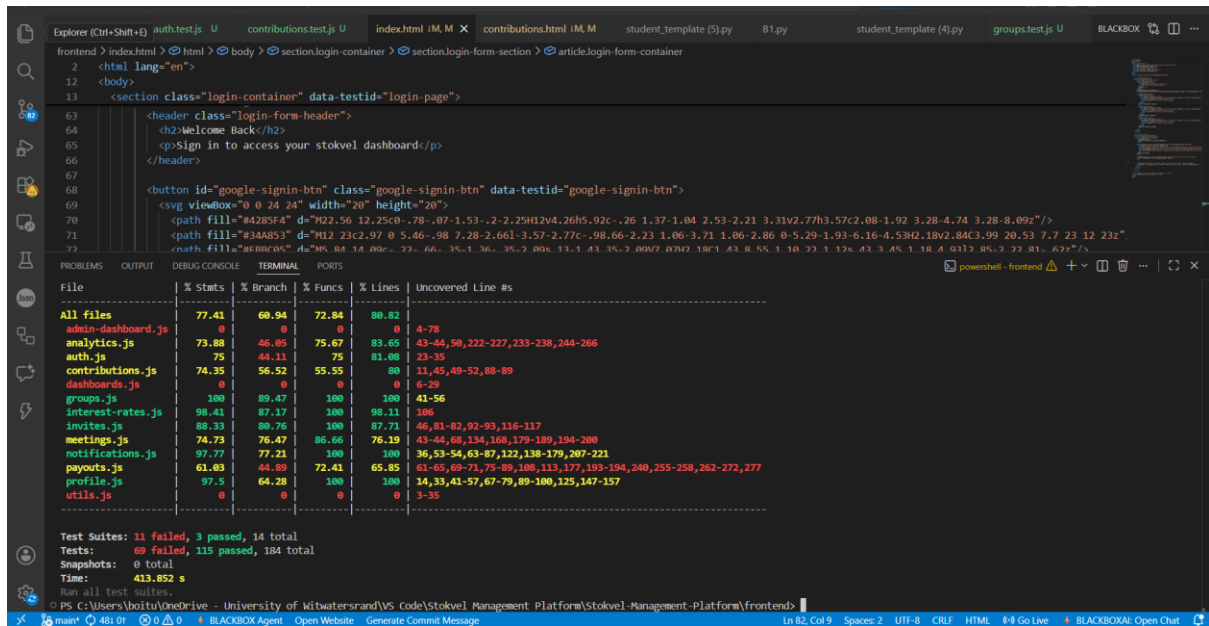

Frontend tests

We ran frontend test by running the following commands on the terminal:

```
cd frontend
```

```
npm test
```

which led to such output:

Ran all test suites.
```

Runs 200+ tests across all frontend JS files using Jest . Coverage report is generated in frontend/coverage/.

Frontend setup

The frontend is plain HTML/CSS/JS . Open frontend/index.html using a Live Server extension in VS Code, or serve it via the backend by running:

```
cd backend
```

```
node server.js
```

Then visit <http://localhost:3000> in your browser.

Code coverage reports are displayed in Codecov

<https://app.codecov.io/github/Boitumelo-555/Stokvel-Management-Platform> , which is linked to the GitHub repository.
